

I am Akash Chetia, a 2nd-year undergraduate student of Assam Engineering College, Guwahati which is affiliated with Assam Science and Technology University and my branch is Electronics and Telecommunication Engineering, I am interested in research and my interest is matching with your area of research.

Recently, I came to know about your great findings and research in the field of radio sensing from Subrat Dutta and I am enthusiastic to study more about this field, so I am very eager to learn some more useful and interesting concepts under your supervision and would be delighted to help in your day to day research work. Therefore, I would be extremely glad if you grant your consent for the same.
